This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

VITALPATH HEALTH OBLIGATIONS

VITALPATH HEALTH ("VPH") understands that you and your family's health information is very personal. We strive to protect our patient's privacy. VPH is required by law to:

- Maintain the privacy of protected health information ("PHI");
- Give you this notice of our legal duties and privacy practices regarding health information about you; and
- Follow the terms of our notice that is currently in effect.

USE OF PERSONAL HEALTH INFORMATION

The following describes the ways we may use and disclose PHI. Except for the purposes described below, we will use and disclose PHI only with your written permission. You may revoke such permission at any time by writing to our practice Privacy Officer.

Treatment: We may use and disclose PHI for your treatment and to provide you with treatment-related health care services. For example, we may disclose PHI to doctors, nurses, technicians, or other personnel, including people outside our office, to coordinate your care or to plan a course of treatment for you.

Payment: We may use and disclose PHI so that we or others may bill and receive payment from you, an insurance company, or a third party for the treatment and services you received. For example, we may disclose information regarding your medical procedures and treatment to your insurance company to arrange payment for the services provided to you.

Health Care Operations: We may use and share your PHI for health care operations purposes. We may use your PHI to conduct an evaluation of the treatment and services provided or to review staff performance. We may disclose your PHI for education and training purposes to doctors, nurses, technicians, medical students, residents, fellows, and others. We also may share information with other entities that have a relationship with you (for example, your health plan) for their health care operation activities.

Health Information Exchanges: We participate in initiatives to facilitate electronic sharing of patient information, including, but not limited to, Health Information Exchanges ("HIEs"). HIEs involve coordinated information sharing among HIE members for purposes of treatment, payment, and health care operations. If you wish to opt out of this information sharing, please contact the VPH Privacy Officer as described below. You may also opt out of Pennsylvania's state-wide HIE by completing and submitting this [OPT-OUT OR OPT-BACK-IN FORM](#).

Individuals Involved in Your Care or payment for your care: When appropriate, we may share your PHI with a family member or other person if they are involved in your care or paying for your care. We also may notify your family about your location or general condition or disclose such information to an entity assisting in a disaster relief effort.

Communicating with You: We will use your PHI to communicate with you about important topics, including appointments, your care, treatment options and other health related services, and payment for your care. We may contact you at the email, phone number or address that you provide, including via text messages, for these communications. We encourage all patients to sign up for our patient portal, which may be used to send and receive communications conveniently and securely and to share preferences for how we contact you.

Business Associates: At times, we need to disclose your PHI to persons or organizations outside of VPH who assist us with our payment, billing activities, and health care operations. We require these Business Associates and their subcontractors to appropriately safeguard your PHI.

Military and Veterans: If you are a member of the armed forces, we may release PHI as required by military command authorities. We also may release PHI to the appropriate foreign military authority if you are a member of a foreign military.

Inmates or Individuals in Custody: If you are an inmate of a correctional institution or under the custody of a law enforcement official, we may release PHI to the correctional institution or law enforcement official. This release would be if necessary: (1) for the institution to provide you with health care; (2) to protect your health and safety or the health and safety of others; or (3) the safety and security of the correctional institution.

Law Enforcement: We may release PHI if asked by a law enforcement official if the information is: (1) in response to a court order, subpoena, warrant, summons or similar process; (2) limited information to identify or locate a suspect, fugitive, material witness, or missing person; (3) about the victim of a crime even if, under certain very limited circumstances, we are unable to obtain the person's agreement; (4) about a death we believe may be the result of criminal conduct; (5) about criminal conduct on our premises; and (6) in an emergency to report a crime, the location of the crime or victims, or the identity, description or location of the person who committed the crime.

Other Uses and Disclosures. We may be permitted or required by law to make certain other uses and disclosures of your PHI without your authorization. Subject to applicable law, we may release your PHI:

- For any purpose required by international, federal, state or local law;
- For public health activities, including required reporting of disease (including cases of HIV or AIDS), injury, birth and death, for required public health investigations, and to report adverse events or enable product recalls;

- To provide legally required notices of unauthorized access to or disclosure of your health information;
- To coroners, medical examiners, and funeral directors;
- If necessary to arrange organ or tissue donation or transplant;
- For national security, intelligence, or protective services activities; and
- For purposes related to your workers' compensation benefits.

If you do give us an authorization, you may revoke it at any time by submitting a written revocation to our Privacy Officer and we will no longer disclose PHI under the authorization, but disclosure that we have already made in reliance on your authorization before you revoked it will not be affected by the revocation.
